Subject: RE: New Indy - steam stripper optimization information

Dan,
Unfortunately, I will have to coordinate with a few persons here. What about 11 am this morning?
Also, I believe this will be a technical only call, and we will not be including our legal representation. However, please let me know if you intend to have an attorney on the call, so I can coordinate with our attorney as well.
Look forward to hearing from you.
Denis

OK. I can handle that one. Do you want to do so now?

Dan,
Most of the discussion will be on the duration of the steam stripper downtime, and foul condensate flow rates to the ASB.

My apologies for the late response. Can you provide any specifics so that I may coordinate with the subject matter expert? Will this be a low-key discussion that won't require legal representation on our behalf? Let me know and I will gather up the team ASAP. Thanks

Dan,
I hope you are well. Do you have some time this afternoon to discuss the steam stripper optimization? EPA has a few follow up questions about the document that was submitted.
Just let me know and then I can schedule a teams meeting.

Best,
Denis
